best led lighting solutions
for cheerful and vibrant workspaces
2 x 2 luminaires
LEDs form the most significant technology change in the lighting industry. It has revolutionized the entire lighting industry with new set of LED luminaires surging up for every application. LEDs now offer a complete solution which create dynamic lighting environment with enhanced efficiency and quality of light.

As office space design has seen a dramatic change over the past decades, still the 2x2 ceiling grid remains a universal favorite. This has benefited many organizations to focus on the quality of light and acquire luminaires that are easy to install, easily available in standard dimensions enabling in quicker turnaround time of the project. This eventually leads faster project completion, creating cheerful and vibrant workplaces.
SpacioLED
Taking energy efficiency to another level

Recess mounted indirect-direct LED luminaire

Specifications
- CRCA powder coated ribbed housing
- Special virgin grade High Efficiency Translucence (HET) diffuser
- High performance LEDs powered by a reliable driver
- Driver pre-wired up to terminal block
- Provision for loop in loop out for ease of wiring
- Conforms to IS 10322/Part 5/Sec 1:1987

SpacioLED brings together the advantages of an efficient and high performance technology. It is a transformation that has helped us create well-illuminated spaces in a greener and sustainable way.

Installation
- Luminaires suitable for Armstrong/ CG/CRC/ TRAC/ USG/ Celotex/ POP modular ceiling systems
- Luminaire design for installation with four nos. of steel hook-up wire suspension to ensure correct leveling within ceiling aperture
- Simple and rapid installation to save time and effort

Dimensions

Accessories
- In-built electronic LED driver
- Complete with LEDs and drivers pre-wired up to terminal block
- Away 15Amps GFP mains connector

MatrixLED
Smart solution for incredible savings

Efficient and green workspace lighting solution

Specifications
- High efficacy long life LEDs
- CRCA powder coated white housing
- Aesthetic CRCA powder coated bottom frame
- Special virgin grade High Efficiency Translucence (HET) diffuser
- Integral multi-stage CCCV electronic driver with 3kV surge protection
- Driver pre-wired up to the terminal block
- Conforms to IS 10322/Part 5/Sec 1:1987

MatrixLED brings you the advantages of the LED technology, transforming today's workspaces into well-illuminated, vibrant and cheerful areas.

Installation
- Suitable for Armstrong/ CG/CRC/ TRAC/ USG/ Celotex/ POP modular ceiling systems

Dimensions

Cat.No.* Luminaire Lumen OP Nominal System Wattage (W) Rated Voltage (V) Mains Current (A) Approx. Weight (Kg) Case Lot (in nos)

CresLED
A delightful lighting experience for modern workspaces

Next Generation, recess mounted LED luminaire

Excellent thermal management and reliable drivers ensure long life of LEDs

CresLED is a smart, efficient and eco-sustainable solution that imbibes the inherent benefits of LEDs, and also addresses the need for good quality lighting in new age offices.

Specifications
- High power, high efficiency LEDs
- CRCA powder coated housing with soft, aesthetic bottom frame with corners made in engineering plastic
- Satin finish High Efficiency Translucence (HET) diffuser
- Crescent shaped opal corner diffuser made from virgin non-yellowing grade PMMA acrylic
- Aesthetic, user friendly button locks made in engineering plastic
- Soft, transforming perforation pattern renders a fresh look
- Excellent heat dissipation through special design of high thermal conductivity MCPCB and housing
- 3 Stage Isolated Constant Voltage Constant Current (CVCC) driver pre-wired up to terminal block
- Conforms to IS 10322 / Part 5 / Sec 1:1987

Energy Savings
- Up to 50%

Advanced Technology
- Japanese LED Technology

Long Life
- 50000 Hours

Green Lighting Solution

CVCC Driver for Enhanced Reliability

Installation
- Designed for installation with four nos. of steel hook-up wire suspension to ensure correct leveling within ceiling aperture
- Suitable for 10mm ET cable entry through knock outs from top
- Suitable for Armstrong/ CRG/ TRAC/ USG/ Celotex/ POP modular ceilings

Dimensions
- Cut-out: 572mm x 572mm
- All dimensions are in mm, Tolerance +3mm

Immaculate LED
For bright & cheerful spaces

A Light Experience

Seamless light design for uniform light distribution and clutter free ceilings

Specifications
- CRCA white powder coated housing with ABS plastic top cover for better aesthetic finish
- Special virgin grade High Efficiency Translucence (HET) diffuser
- High luminous flux LEDs for better light output
- Electronic driver duly wired up to the terminal block
- Designed and manufactured to comply with IS 10322 part 5/Sec 1 1987

Features
- Seamless Integration
  Ceiling have non disruptive look, appearing free of a visible light source even when the light is off creating a pleasant appearance
- Visual Harmony
  A soft and soothing visual experience with uniform illumination enriching the work environment that ultimately helps in achieving the work tasks
- More Efficiency
  High efficiency LEDs ensure a uniform and optimum light output which creates a vibrant and uniform illumination while consuming significantly lesser energy and hence reduces LFD
- Enhanced Performance
  High Efficiency Translucence (HET) diffuser avoids dark patches and contrasts creating a perfect diffusion of light
- Aesthetic Design
  Its sleek and seamless profile adds to overall visual appearance of the modern workspaces. It comes with a thinnest bottom frame creating a clutter free lighting with a neat and clean look to the ceiling

Installation
- Suitable for 19mm ET cable entry through knockouts from top
- Suitable for Armstrong/CRG/TRAC/USG/Celotex/POP™ modular ceiling system

LED is an ever improving and evolving technology. Wipro is committed to bring you the best in LED technology. Data given is representative and can change.
ImmaculateLED Platinum is a seamless light design for better light distribution and clutter free ceilings. A more natural light experience which fills up the workspaces uniformly. It creates visual harmony with uniform illumination and enriches the work experience by enhancing the ambience and ultimately the productivity. Moving ahead on the path of innovation, ImmaculateLED Platinum packages high efficiency with the latest LED technology in the most simplistic form. It combines advanced engineering with a strikingly pure design aesthetic for a totally new user experience.

**Specifications**
- Extruded aluminium white powder coated housing
- Edge lit optics derived from reflector+light guide plate+diffuser configuration
- Low wattage high efficient LEDs
- Excellent heat dissipation through direct contact
- Conforms to IS 10322 / Part 5 / Sec1: 1987

**Features**
- **LGP Panel**
  ImmaculateLED Platinum embeds best in class Light Guide Panel (LGP) for highest efficiency and optimum output.
- **Edge Lit Technology**
  A state-of-the-art Edge lit configuration for optics. It allows to develop the slimmest products with better light efficacy. The technology offers a blend of both aesthetics & functionality.
- **Uniform Light**
  A soft and soothing visual experience with uniform illumination enriching the work environment that ultimately helps in achieving the work tasks.

**Installation**
- Suitable for 19mm ET cable entry through knockouts from top
- Suitable for Armstrong/ CRG/ TRAC/ USG/ Celotex/ POP™ modular ceiling system

**Dimensions**
- Cutout: 570mm x 570mm
- All dimensions are in mm. Tolerances = ±2mm

The WaveLED embodies a unique wave shaped diffuser which blends seamlessly with modern day office interiors and boasts both high efficiency and uniform light distribution. High efficiency LEDs and HET diffuser enhances its overall performance. The product design makes the office interiors appear contemporary and futuristic with clean and neat look.

Specifications
- White powder coated CRCA housing
- Special virgin grade High Efficiency Translucence (HET) diffuser
- High Luminous Flux imported LEDs for better light output
- Electronic control gear duly wired up to the terminal block
- Designed and manufactured to comply with IS 10322 part 5/Sec 1 1987

The WaveLED embeds a unique wave shaped diffuser which blends seamlessly with modern day office interiors and boasts both high efficiency and uniform light distribution. High efficiency LEDs and HET diffuser enhances its overall performance. The product design makes the office interiors appear contemporary and futuristic with clean and neat look.

Installation
- Designed for installation with four nos. of steel hook-up wire suspension to ensure correct leveling within ceiling aperture
- Suitable for 19mm ET cable entry through knock outs from top
- Suitable for Armstrong/ CRG/ TRAC/ USG/ Celotex/ POP** modular ceilings

Features
- Wave Shape Diffuser
  The wave shape diffuser adds a different dimension to the workspace and gives a new look by creating a pleasant appearance
- Visual Harmony
  A soft and soothing visual experience with uniform illumination enriching the work environment that ultimately helps in achieving the work tasks
- More Efficiency
  High efficacy LEDs ensure a uniform and optimum light output which creates a vibrant and uniform illumination while consuming significantly lesser energy and hence reduces LPD
- Enhanced Performance
  High Efficiency Translucence (HET) diffuser avoids dark patches and contrasts creating a perfect diffusion of light
- Aesthetic Design
  Its sleek and seamless profile adds to overall visual appearance of the modern workspaces. It comes with a thinnest bottom frame creating a clutter free lighting with a neat and clean look to the ceiling

LED is an ever improving and evolving technology. Wipro is committed to bring you the best in LED technology. Data given is representative and can change.
**RadianceLED**

A top performer with fluidic elegance

**Specifications**
- Direct-Indirect lighting
- Wing shaped reflector-cum housing constructed in CRCA powder coated
- Special virgin grade High Efficiency Translucence (HET) diffuser
- Integral covered control gear compartment with pre-wired up to terminal block
- Confirms to IS 10322 / Part 5 /Sec 1 : 1987

RadianceLED, an ultimate blend of performance and fluidic elegance provides a futuristic lighting experience. Its minimal design with no frills and neutral styling makes it a user-centric design created for well-being and feel good office ambiance. RadianceLED is a high efficiency product and creates soft, volumetric and high quality lighting for user well and comfort. It is suitable for upright as well as tilted displays for glare control quality. The optics of the luminaire can be fixed without using any tools making it perfect for easy installation and maintenance. RadianceLED is protected against dirt collection and insects with low loss characteristic which makes it a superior product for new age workspaces.

**Features**
- Gentle contours softens the edges to add a friendlier look
- Deep drawn housing perfectly accommodates the varying radius at the corners, making RadianceLED look premium and outwardly elegant
- High efficiency LEDs delivers enhanced performance
- Maintenance friendly design allows tool-free fixing of the central diffuser
- Perfectly flushed diffuser makes the luminaire dust and insect proof
- The fine blending profile helps in uniform distribution of light. It spreads the light wider, nicely illuminating the vertical and horizontal planes

**Installation**
- Energy efficient LED driver
- Suitable for Armstrong/ CRG/ TRAC/ USG/ Celotex modular ceiling system
- Simple and rapid installation to save time and effort
