

## **Creating a Scene.**

November 03

WIPRO Lighting, the FMCG business of Wipro Limited (NYSE: WIT), showcased the architectural lighting range and control systems at its 'Light Show' in Mumbai on 17<sup>th</sup> October. At the show, the company launched its new architectural lighting controls system called Scene Master. This product will enable customers to gain control over their lighting environment and create the various ambiances and moods. Though this flexible system is specially targeted at the hospitality industry, it can also meet the requirements Of a board room, a gallery, a lecture theatre, or any public space. The show also showcased Wipro's Brightness Management of products for office lighting (which includes products for industrial lighting like Radiant and Vision) and lighting for retail malls and hospitals with the Galaxy, Softlite and Comfort ranges.
