

Wipro Lighting wins the Frost & Sullivan - 2017 India LED Lighting Visionary Innovation Leadership Award

Oct 6, 2017

Wipro Lighting received the Frost and Sullivan's 2017 India LED Lighting Visionary Innovation Leadership Award in a ceremony where Frost & Sullivan concluded its 4th Annual 2017 India Best Practices Awards Banquet on October 5th at ITC Maratha, Mumbai.

This year 57 Awards were presented at the Banquet across industry sectors such as Electronics & Appliances, Energy & Environment, Digital Media, Industrial Automation & Process Control, Metals & Minerals, Mobility, Tech Vision, and Transformational Health.

The Awards Banquet hosted some of the top-notch names from across industries that showcased Best Practices and exemplary achievements of enterprises in their respective sector. This year's awards highlighted potential leaders and disruptors, who have shown significant growth, have identified emerging trends and whose vision served as the catalyst in generating world-class performance within their industries.

P.S: Frost & Sullivan Best Practices Awards is a Global program that recognizes outstanding industry achievements by companies globally. The methodology for determining Award recipients is unique - a deep dive research and analysis conducted by Frost & Sullivan industry experts, with winners being identified using structured metrics based evaluation process.
