

FOLLOW THE LIGHT

PIELED

CREATE STYLISH & VISUALLY DISTINCTIVE WORKSPACES

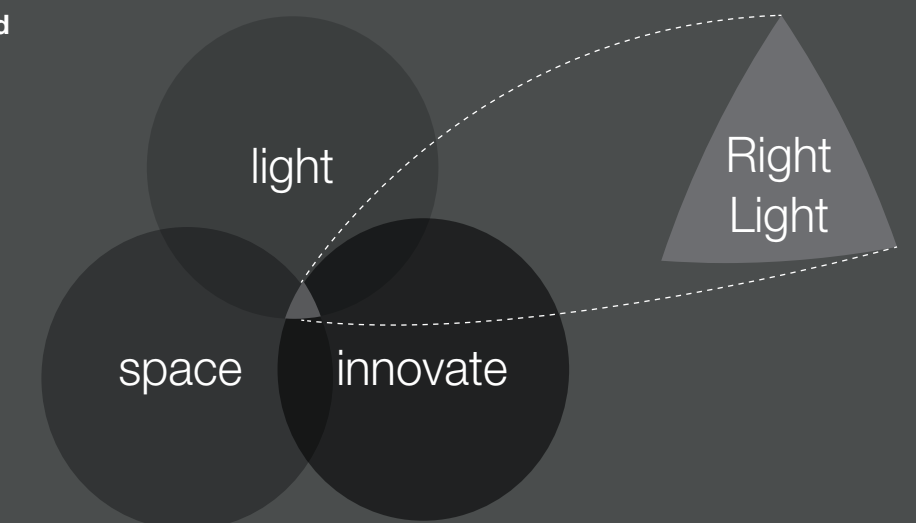

RIGHT LIGHT PHILOSOPHY

The 'Right Light' has an enlightening touch on the environment. It goes beyond just illumination to create a warm, comfortable and aesthetic ambience that facilitates people to work effectively and live fully.

Asserting on the quality of light that brings space to life and life to space, Right Light philosophy advocates:

- Visually balanced lighting that provides uniform light distribution in horizontal and vertical planes
- Creates vibrant and cheerful workspaces
- Drives higher performance leading to better productivity in workspaces
- Lighting for the space, not just for the work surface

Presenting 'PieLED' conforming to the Right Light philosophy for creating cheerful, vibrant and high performance workspaces.

SIMPLE & PURE LIGHT

Open high performance offices are the new norm today. New-age work environment requires simple, adaptable and sustainable lighting system for delivering high performance. Suspended luminaires are visually appealing yet non-intrusive, thereby minimising the clutter on the ceiling. Our modern office lighting solutions are in sync with the international trends, delivering energy efficient and contemporary work environment.

Our latest offering is an exceptionally designed and one of its kind suspended LED luminaire - PieLED. Its straight crisp profile seamlessly connects and aligns with the architecture while unique, specially designed optics gives modern workspaces the undivided attention.

Create beautiful and visually distinctive workspaces with absolute illuminance of purity...with PieLED.

MARK OF CHARACTER

PieLED with its extra-ordinary style breaks away from the mainstream lighting system. Its contemporary and minimalistic design adds a new dimension to your workspaces.

Extruded aluminium housing in PieLED, gives it a clean fit and finish, which accentuates the ceiling and ensures seamless end-to-end connectivity giving a complete makeover to your offices. With enhanced light quality, it creates a feeling of well being and a lively work environment. PieLED's specially designed end caps can be made available in various colour options matching the corporate identity.

360 DEGREE ILLUMINANCE

*unique optics for
volumetric lighting*

Behind PieLED's distinctive design lies an impressive technology and thoughtful construction.

Engineered with a purpose, its unique optical system creates volumetric lighting.

PieLED's Upward-downward lighting ensures uniform light, creating a relaxed and stress free work environment.

PieLED is designed to make your work quick and easy. Its smart engineered system embraces comfort and focuses on faster installation.

PieLED's snap fit diffuser, helps in removing and maintaining the difuser and the hidden height adjustment mechanism provides the flexibility in installing the product without any hassles and gives a complete freedom to adapt the product as per the available ceiling height.

So what ever be the format and layout, your comfort is ensured !

PERFECT ENGINEERING

*ease of maintenance with
freedom of adaptability*

STYLE AND SUBSTANCE

Be it, its high efficiency translucence PMMA diffuser or light weight housing, they form the basis of a good luminaire design. The key focus is always delivering value, sustainability and outstanding functionality. PieLED not only displays its striking profile but also embraces green with its low wattage high efficiency LEDs that saves upto 50% energy.

*higher savings with an
enlightening experience*

SEAMLESS CONNECTION

for an uninterrupted illumination

SPECIFICATIONS

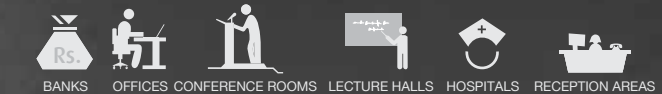

- Extruded pure white powder coated aluminum housing with die-cast end cap
- Up-down lighting with high efficacy LEDs
- High efficiency translucence LED PMMA diffuser
- Suitable for stand-alone and continuous row installation
- LED driver and accessories pre-wired up to terminal block
- Comforms to IS 10322 part 5/Sec 1 1987

INSTALLATION

- Universal suspension system with quick onsite adjustment:
 Mounting with 2 nos. suspensions from ceiling
 WWX 861 suitable for installation on RCC ceiling
 WWX 862 suitable for installation on modular grid Armstrong (Prelude 24mm exposed suspension system)
 WWX 863 suitable for installation on modular grid Armstrong (Silhouette 15mm)

Please order suspension system separately

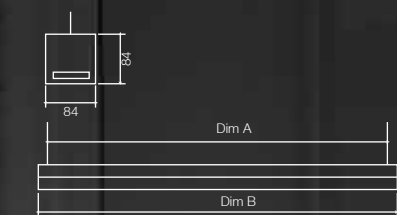

APPLICATIONS

ACCESSORIES

- In-built electronic LED driver
- Complete with LEDs and drivers pre-wired up to terminal block to connect in coming power
- 3way 10Amps GFP mains connector

DIMENSION DRAWINGS

All dimensions are in mm ± 2mm

Cat No.	Dim A	Dim B
LM78-401-XXX-57-XX	1160	1204
LM78-801-XXX-57-XX	2360	2404
LM78-401-XXX-57-CT	1180	1202
LM78-801-XXX-57-CT	2380	2402

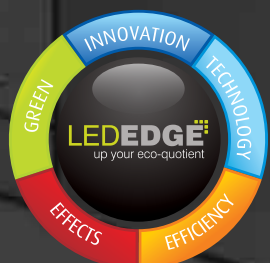

ELECTRICAL DATA

Cat No.*	System Wattage (W)	Rated Voltage (V)	Mains Current (A)	Approx. Weight (Kg)	Case Lot (in nos.)
LM78-401-XXX-57-XX/CT	29W	240	0.12	4.0	01
LM78-801-XXX-57-XX/CT	58W	240	0.24	8.0	01

*Order product code with XX for stand-alone installation and CT for end-to-end installation. 57 represents 5700K. Replace 57 with 40 for 4000K
