

WIPRO LIGHTING LEEDGE

Get the Edge with LED Lighting Solutions for Contemporary Interiors through:

- ★ Eco-sustainability, Design & innovation, Green technology and Efficient lighting solutions
- ★ Capability to service multi-location accounts
- ★ Service Commitment - 35 branches and over 400 dedicated stockists
- ★ Ease of contact through website
- ★ Trustworthiness and Reliability of Wipro

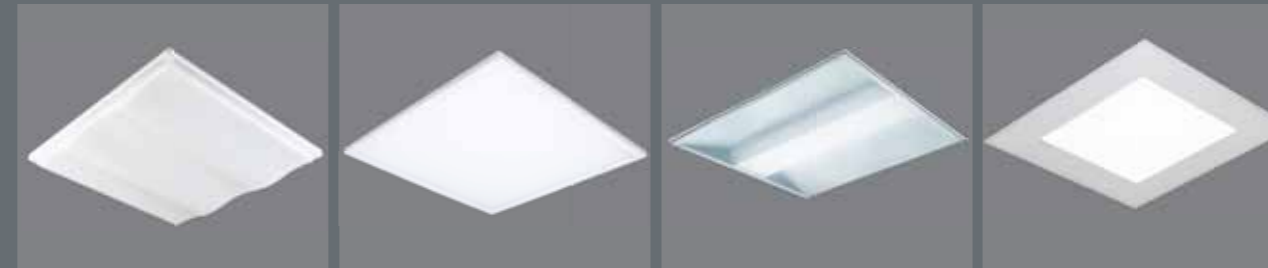

where aesthetics meet efficiency

A next generation 2'X2' luminaire designed for the new age workspaces. RippleLED is completely distinct from its stereotype counterparts. The unique circular illumination core aesthetically blends into a square periphery, thereby illuminating the workspace impressively into a pleasant and productive work environment.

Create the lasting impression

...for an
inspirational workplace!

Create a visual delight at workspaces with the new age lighting technology. LEDs are rapidly transforming the traditional workspaces into more contemporary, sustainable and vibrant spaces. While organisations are gearing up to make their offices future ready, its essential to adapt LEDs for eco-friendly and energy efficient lighting solutions.

RippleLED, the new offering from Wipro Lighting is high on aesthetics and efficiency, ideal for offices where the people's sense of well-being in the workspace is a priority, thereby increasing productivity and reducing energy consumption.

enhanced visual performance
with maximised savings

visual delight

RippleLED is a dynamic solution that imbibes the inherent benefits of LEDs. Its high efficiency translucent PMMA diffuser distributes light uniformly and gives a soothing and fresh appeal to the workspaces.

energy savings

Excellent luminaire design along with high efficiency LEDs contribute to upto 50% of energy savings.

aesthetics

Ripple LED plays a pivotal role in transforming space by giving it a character and making it more lively and impressive.

long service life

Specially designed aluminum housing ensures excellent heat dissipation that leads to optimum thermal management giving a long service life, saving maintenance cost.

SPECIFICATIONS

- Specially designed high efficacy LEDs
- White powder coated aluminium housing with CRCA frame
- High Efficiency Translucent PMMA diffuser
- Specially designed indigenous LED driver pre-wired to terminal block
- Designed & manufactured to comply with IS 10322 part 5/Sec 1 1987

INSTALLATION

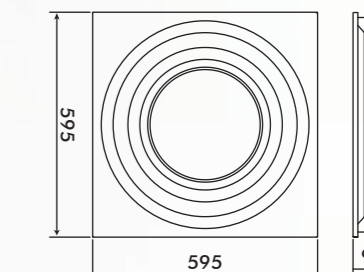

- Suitable for Armstrong / CRG /TRAC / USG/Celotex modular ceiling system.
- Designed for installation with four nos.of Steel hook-up wire
- For Gypsum /POP applications additional frame (Part No:9180P01025) needs to be ordered separately.
