STYLUS

innovative n' connected flexibility

PREMIUM LIGHTING SOLUTIONS FOR WORKSPACES

STYLUS

Flexibility is your entitlement

Straight lines, criss-cross or geometric patterns.. do it easily with Stylus

Freedom in Design

Linear profiles are best to use, when they flow with the lines in architecture. Stylus looks exciting with the **connectivity options** it offers. It does open a lot of avenues to **experiment and play with light.**

Stylus Benefits

Flexi-lit

It's a first Flexi-lit angular lighting solution with unique angle detector which offers to rotate the arms at different angles, blends well with the linear luminaire and helps in forming a desired illuminated shape and forms in space.

Nodal: Is a central downlighter with ridge to connect linear fittings with the help of end cap. Linear fitting can be swiveled from 75° to 120° angle with three arms.

Nodal

LM43-161XXX-57SDW	Stylus Nodal Downlight	1 no.

CONNECTIVITY OPTIONS

Beauty of Stylus lies in its connectivity options and the limitless design variations it opens up. The 'X', 'V', 'Y' and '+' variants of Stylus seamlessly connect the straight arms of Stylus allowing designers to explore the forms they want to experiment with.

STYLUS

...to light up your most
creative designs

LIGHT DISTRIBUTION OPTIONS

Connectivity options in Stylus open up an array of offerings, giving designers the freedom and flexibility that we truly promise. Stylus not only offers interesting connectivity variants but also has combinations in uplight and downlight ratios, which makes using it even more interesting.

Option of direct indirect lighting

STYLUS

with louvres

- Classic look
- Visual harmony
- Wide light distribution- 80°

...for those who
love classics

LOUVRES, UGR<19

Louvres have ageless aesthetics and following. Even after decades, they are preferred by many for their efficiency and functionality. Not only do they provide adequate task-light, they also cut glare at all angles.

Option of direct indirect lighting

STYLUS

with collimator lens

...for the
critical tasks

GLARE-FREE, UGR<6

The new generation collimator lens is widely known to provide the perfect glare-free light with UGR<6. These luminaires are preferred for high performance tasks as they significantly reduce stress and fatigue of the occupants.

- High on task
- Narrow beam angle - 45°
- **Ideal for green building**

STYLUS

with micro precision optics diffuser

... for the
soft glow

SPECIALLY DESIGNED DIFFUSER, UGR<19

Linear profiles with diffuser are the most preferred options of designers today as it allows them to use light to create patterns and add life to the ceilings. It perfectly suits the currently popular open ceiling styling where the luminaire merges with the background and just the linear glow is visible.

Option of direct indirect lighting
