FROSTLINE
AN INDUSTRY FIRST
COLD STORAGE LIGHTING SOLUTION

India's hot tropical weather demands efficient cold storage solutions for the business success of pharmaceutical, food and agricultural industries. **Cold chain network plays a vital role in improving shelf life, reducing wastage and retaining quality besides empowering distribution channels.**

Wipro Lighting brings the latest technological innovations, design excellence and expertise in tailor-made lighting solutions to the world of cold storage.

Presenting **Frostline**. The first ever range of specialized lighting solutions for cold storage facilities. **Frostline lighting is designed to perform exceptionally well in extremely low temperatures, while optimizing chiller effectiveness. Not just to protect the perishables, but businesses too.**

REGULATING TEMPERATURES

Cold storage facilities need regulated temperatures at all times. Door systems, partition/insulating material, lighting fixtures and other factors impact the temperature inside.

HIGH ENERGY COSTS

Energy cost of refrigeration is the biggest contributor to operating costs.

UNSAFE ENVIRONMENT

Extreme temperatures and refrigerant vapours are potentially hazardous. They affect visibility, hamper productivity and pose a threat to safety.

MAXIMIZING PRODUCTIVITY

Inefficient floor plans and lighting breakdowns can disrupt operational productivity.

Therefore, it is important for all utilities to be energy and cost efficient, while enhancing safety and productivity for the operators.

FROSTLINE

THE COLD STORAGE SPECIALIST

The **Frostline** range of lighting solutions for cold storage facilities is the perfect companion to chiller effectiveness. The only dedicated range of lighting for cold storages, **Frostline** delivers superior optical performance where it matters. With the ease of installation and a long service life, **Frostline** is the best way to master the cold.
